What people build	What is scored	Faithful?
Proof-assistant benchmarks and provers miniF2F, ProofNet, LeanDojo, DeepSeek-Prover, …	compiles, proof closes	not checked
Solver-in-the-loop reasoning Logic-LM, LINC, …	final answer right	not checked
Specs from requirements or code nl2spec, Clover, …	matches code, or a human reads it	not checked
Checks of meaning Li 2024, FormalAlign 2025, ReForm 2026, Wang 2026	learned score, agreement, human study	estimated
This talk	**formula against its own roundtrip**	**equivalence decided by a solver**
